## *Geriatrics and Gerontology International* Volume 18 Issue 6, June 2018

### REPORT OF THE COMMITTEE

- Guidelines from the Japan Geriatrics Society for the decision-making processes in medical and long-term care for the elderly: Focusing on the use of artificial hydration and nutrition  
*Y Ouchi et al.* 823

### EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Silent aspiration predicts mortality in older adults with aspiration pneumonia admitted to acute hospitals  
*T Nakashima et al.* 828
- Japanese version of the Montreal Cognitive Assessment cut-off score to clarify improvement of mild cognitive impairment after exercise training in community-dwelling older adults  
*M Nara et al.* 833
- High plasma adiponectin levels are associated with frailty in a general old-old population: The Septuagenarians, Octogenarians, Nonagenarians Investigation with Centenarians study  
*M Nagasawa et al.* 839
- Cognitive function and unsafe driving acts during an on-road test among community-dwelling older adults with cognitive impairments  
*R Hotta et al.* 847
- Validation and standardization of the Brazilian version of the Medication Regimen Complexity Index for older adults in primary care  
*LLN Pantuzza et al.* 853
- Association between objectively measured chewing ability and frailty: A cross-sectional study in central Thailand  
*M Iwasaki et al.* 860
- Living alone is associated with an increased risk of institutionalization in older men: A follow-up study in Hamanaka Town of Hokkaido, Japan  
*M Takeuchi et al.* 867
- Tooth loss, swallowing dysfunction and mortality in Japanese older adults receiving home care services  
*M Furuta et al.* 873
- Brain aging: Evaluation of pH using phosphorus magnetic resonance spectroscopy  
*M Cichocka et al.* 881
- Effect of rivastigmine on plasma butyrylcholine esterase activity and plasma ghrelin levels in patients with dementia in Alzheimer's disease  
*A Kuroda et al.* 886
- Population-based study examining the utilization of preventive medicines by older people in the last year of life  
*SW Narayan and PS Nishtala* 892
- Current use of antihypertensive drugs in Japanese patients with hypertension: Analysis by age group  
*T Ishida et al.* 899
- Differences among patients with Alzheimer's disease, older adults with mild cognitive impairment and healthy older adults in finger dexterity  
*S Suzumura et al.* 907

- Prevalence of sarcopenia and association with oral health-related quality of life and oral health status in older dental clinic outpatients  
*M Takahashi et al.* 915
- Objectively measured physical activity and cognitive function in urban-dwelling older adults  
*H Umegaki et al.* 922
- Clinical predictors of Alzheimer's disease progression  
*N Hishikawa et al.* 929
- Financial impact and effect on the outcome of preoperative tests for at-risk older hip fracture patients  
*EL Steinberg et al.* 937
- Relationship between the activities of daily living, oral health-related quality of life and dementia  
*M-J Cho et al.* 943

### SOCIAL RESEARCH, PLANNING AND PRACTICE

- Depressive symptoms and all-cause mortality in Korean older adults: A 3-year population-based prospective study  
*SH Park et al.* 950
- Will teenagers today live with and care for their aged parents tomorrow?  
*CY Cheong et al.* 957

### BIOLOGY

- Small dense low-density lipoprotein cholesterol is a promising biomarker for secondary prevention in older men with stable coronary artery disease  
*K Sakai et al.* 965

### LETTERS TO THE EDITOR

#### CASE REPORTS

- Pneumoretroperitoneum, pneumoperitoneum, pneumomediastinum, pneumopericardium and subcutaneous emphysema after endoscopic mucosal resection in an older adult  
*M-P Ho et al.* 973
- Combined operation for thymoma with myasthenia gravis and coronary artery disease in an octogenarian  
*H Hino et al.* 975
- Retroperitoneal relapse in an older patient with multiple myeloma during pomalidomide and dexamethasone treatment  
*N Watanabe et al.* 977

#### RESEARCH STUDIES

- Core symptoms and peripheral symptoms of dementia  
*M Fujii et al.* 979
- Evaluation of a high serum docosahexaenoic acid level as a predictor of longevity among elderly residents at a special nursing home  
*H Matsuda et al.* 980
