## *Geriatrics and Gerontology International* Volume 19 Issue 2, February 2019

### SPECIAL ARTICLE

Sarcopenia and dysphagia: Position paper by four professional organizations  
*I Fujishima et al.*

91

### EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

Cognitive activity in a sitting position is protectively associated with cognitive impairment among older adults  
*S Kurita et al.*

98

Applicability of an elastic band exercise program to wheelchair-bound older adults with and without dementia: A self-rating survey  
*C-Y Hsiao et al.*

103

Association of dynapenia, obesity and chronic diseases with all-cause mortality of community-dwelling older adults: A path analysis  
*TR Komatsu et al.*

108

Social problems in daily life of patients with dementia  
*S Terada et al.*

113

Risk factors and prognostic implications of aspiration pneumonia in older hip fracture patients: A multicenter retrospective analysis  
*S-E Byun et al.*

119

Relationship between the occurrence of falls by season and physical functions of community-dwelling old-old people living in cold, snowy areas  
*Y Kihara et al.*

124

High frequency of getting out of bed in patients with Alzheimer's disease monitored by non-wearable actigraphy  
*Y Higami et al.*

130

Temporal muscle thickness as a new indicator of nutritional status in older individuals

*Y Hasegawa et al.*

135

Initiation of advance care planning in newly admitted nursing home residents in Flanders, Belgium: A prospective cohort study

*K Paque et al.*

141

Effects of a hybrid intervention combining exergaming and physical therapy among older adults in a long-term care facility

*Y-Z Wu et al.*

147

Sarcopenia is associated with tongue pressure in older patients with type 2 diabetes: A cross-sectional study of the KAMOGAWA-DM cohort study

*A Kaji et al.*

153

### SOCIAL RESEARCH, PLANNING AND PRACTICE

Could problem lists summarize comprehensive geriatric assessments? A nationwide cross-sectional survey on geriatricians' attitudes towards problem lists

*N Tomita et al.*

159

### BIOLOGY

Cardiovascular risk profiling of long-lived people shows peculiar associations with mortality compared with younger individuals

*A Montesanto et al.*

165

### LETTERS TO THE EDITOR RESEARCH STUDY

Complaint of poor night sleep is correlated with physical function impairment in mild Alzheimer's disease patients

*C Fujisawa et al.*
