Geriatrics and Gerontology International Volume 19 Issue 3, March 2019

EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Utility of the Quick Sequential Organ Failure Assessment in Japanese patients with nursing- and healthcare-associated pneumonia
S Noguchi et al. 177
- Sex differences in 1-year mortality risks in older patients experiencing a first acute heart failure hospitalization
F Formiga et al. 184
- Hospital dental hygienist intervention improves activities of daily living, home discharge and mortality in post-acute rehabilitation
A Shiraishi et al. 189
- Comparison of brain perfusion patterns in dementia with Lewy bodies patients with or without cingulate island sign
M Ishibashi et al. 197
- Prevalence of atrial fibrillation and associated anticoagulant therapy in the nonagenarian population of the Community of Madrid, Spain
C Lahoz et al. 203
- Clinical characteristics and short-term outcomes in patients with acute cholecystitis over aged >80 years
T Akasu et al. 208
- Risk factors of surgical site infection in geriatric orthopedic surgery: A retrospective multicenter cohort study
M Ren et al. 213
- Ultrasound-guided totally implantable venous access device through the right innominate vein in older patients is safe and reliable
X Sun et al. 218
- Resilience and affect balance of empty-nest older adults with mild cognitive impairment in poor rural areas of Hunan province, China
L Xie et al. 222
- Effects of changes in family social capital on the self-rated health and family life satisfaction of older adults in Taiwan: A longitudinal study
F-H Jhang 228
- Methodology approaches and challenges in population-based longitudinal study of a neuroprotective model for healthy longevity
H Lau et al. 233
- Incidence and circumstances of falls among community-dwelling ambulatory stroke survivors: A prospective study
Y Goto et al. 240

BEHAVIORAL AND SOCIAL SCIENCES

- Patterns of risk behaviors in Brazilian older adults: A latent class analysis
GT Mello et al. 245

SOCIAL RESEARCH, PLANNING AND PRACTICE

- Physician's perception leading to the transfer of a dying nursing home resident to an emergency department: A French qualitative study
V Kouyoumdjian et al. 249

BIOLOGY

- Association between plasma α -aminobutyric acid and depressive symptoms in older community-dwelling adults in Japan
Y Adachi et al. 254
- Citrullinated histone H3 expression in anti-neutrophil cytoplasmic antibody-associated vasculitis in older Japanese autopsy patients
Y Matsuda et al. 259
- Exercise training increases skeletal muscle strength independent of hypertrophy in older adults aged 75 years and older
H Lee et al. 265

LETTERS TO THE EDITOR COMMENTS

- Handgrip strength cut-off thresholds to define sarcopenia
P Kucukdagli and G Bahat 271
- Response to Handgrip strength cut-off thresholds to define sarcopenia
H Arai 271
- Muscle mass adjustment method affects association of sarcopenia and sarcopenic obesity with metabolic syndrome
O Yilmaz and G Bahat 272
- Response to Muscle mass adjustment method affects association of sarcopenia and sarcopenic obesity with metabolic syndrome
H Arai 272
