## EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Efficacy of rivastigmine transdermal therapy on low food intake in patients with Alzheimer's disease: The Attitude Towards Food Consumption in Alzheimer's Disease Patients Revive with Rivastigmine Effects study  
*N Tsuno et al.* 571
- Five-year incidence of common comorbidities, such as hypertension, dyslipidemia, diabetes mellitus, cardiovascular disease, cerebrovascular disease and cancer, in older Japanese patients with rheumatoid arthritis  
*T Mochizuki et al.* 577
- Dermatological diseases in the geriatric age group: Retrospective analysis of 7092 patients  
*M Yaldiz* 582
- Gender differences in cognitive impairment among the old and the oldest-old in China  
*CE Miyawaki and M Liu* 586
- Association of different bioimpedanciometry estimations of muscle mass with functional measures  
*G Bahat et al.* 593
- Assessing long-term care risk in older individuals with possible cognitive decline: A large population-based study using the Kihon Checklist  
*S Kojima et al.* 598
- Severity of obstructive sleep apnea is associated with the nocturnal fluctuation of pulse rate, but not with that of blood pressure, in older hypertensive patients receiving calcium channel blockers  
*S Nozato et al.* 604
- Effectiveness of acute in-hospital occupational therapy for older patients with hip fracture  
*M Uruma et al.* 611
- Validity of the Kihon Checklist for evaluating frailty status in Turkish older adults  
*ME Esenkaya et al.* 616
- Examining the association between vestibular function and lower extremity circumference in an aged population  
*C-J Wu et al.* 622
- Development of an Anticholinergic Burden Scale specific for Korean older adults  
*K Jun et al.* 628
- Low-volume resistance training improves the functional capacity of older individuals with Parkinson's disease  
*LCP Leal et al.* 635
- Predictors of developing a new need for long-term care of older adults aged  $\geq 70$  years: Results from a population-based cohort study in Taiwan  
*W-C Hsu et al.* 641

- Cognitive frailty in community-dwelling older Japanese people: Prevalence and its association with falls  
*H Kim et al.* 647
- Potentially inappropriate prescribing before and after initiation of medicines for dementia: An Australian population-based study  
*TC Eshetie et al.* 654

## BEHAVIORAL AND SOCIAL SCIENCES

- Community-based program promotes interprofessional collaboration among home healthcare professionals: A non-randomized controlled study  
*M Noguchi-Watanabe et al.* 660

## SOCIAL RESEARCH, PLANNING AND PRACTICE

- Drug costs in long-term care facilities under a per diem bundled payment scheme in Japan  
*S Hamada et al.* 667
- Is unwilling volunteering protective for functional decline? The interactive effects of volunteer willingness and engagement on health in a 3-year longitudinal study of Japanese older adults  
*K Nonaka et al.* 673
- Domiciliary dental care among homebound older adults: A nested case-control study in Japan  
*M Ishimaru et al.* 679

## METHODOLOGICAL REPORT

- Pre-Frail Multicomponent Training Intervention project for complexity of biological signals, functional capacity and cognition improvement in pre-frail older adults: A blinded randomized controlled study protocol  
*MSS Buto et al.* 684

## LETTERS TO THE EDITOR

### COMMENTS

- Sarcopenia and depressive mood in older adults  
*T Kawada* 690
- Response to the comments on "Sarcopenia and depressive mood in older adults"  
*T Hayashi et al.* 690

## CORRIGENDUM
