Geriatrics and Gerontology International Volume 19 Issue 8, August 2019

REVIEW ARTICLE

- Era of geriatric medical challenges: Multimorbidity among older patients
M Kuzuya 699

EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Does transpersonal trust moderate the association between chronic conditions and general practitioner visits in the oldest old? Results of the AgeCoDe and AgeQualiDe study
A Hajek et al. 705
- Social determinants of the association among cerebrovascular disease, hearing loss and cognitive impairment in a middle-aged or older population: Recurrent neural network analysis of the Korean Longitudinal Study of Aging (2014–2016)
K-S Lee and KW Park 711
- Effect of watching professional baseball at a stadium on health-related outcomes among Japanese older adults: A randomized controlled trial
R Kawakami et al. 717
- Prevalence of frailty status among the European elderly population: Findings from the Survey of Health, Aging and Retirement in Europe
G Manfredi et al. 723
- Polypharmacy and gait speed in individuals with mild cognitive impairment
H Umegaki et al. 730
- Gait asymmetry assessment for older adults by measuring circular gait speed
N Ichihashi et al. 736
- Alcohol consumption and incident dementia in older Japanese adults: The Okayama Study
Y Liu et al. 740
- Associations between self-reported hearing loss and outdoor activity limitations, psychological distress and self-reported memory loss among older people: Analysis of the 2016 Comprehensive Survey of Living Conditions in Japan
M Iwagami et al. 747
- Taking metformin and cognitive function change in older patients with diabetes
BK Koo et al. 755
- Diagnosis of postoperative delirium in older adults using the Confusion Assessment Method for the intensive care unit in non-intensive care unit settings: A test modification might improve its diagnostic performance
T Wongviriyawong et al. 762
- Efficacy of a newly developed auditory–cognitive training system on speech recognition, central auditory processing and cognitive ability among older adults with normal cognition and with neurocognitive impairment
Y Yusof et al. 768
- Spouse's functional disability and mortality: The Ohsaki Cohort 2006 Study
T Sone et al. 774

- Reference range of clinical blood tests in physically independent patients of advanced age with groin hernia in a Japanese hospital
M Matsuo and K Tazawa 780
- Older adults are prioritized in terms of waiting time under the emergency triage system in Guangzhou, China
W Pan et al. 786
- Association between decrease in frequency of going out and oral function in older adults living in major urban areas
Y Mikami et al. 792
- Diabetes, arthritis, urinary incontinence, poor self-rated health, higher body mass index and lower handgrip strength are associated with falls among community-dwelling middle-aged and older adults: Pooled analyses from two cross-sectional Malaysian datasets
DKA Singh et al. 798
- Relationship between blood coagulability and sense of burden among caregivers of patients with dementia
A Hirano et al. 804
- Development of the Barthel Index 5 years after hip fracture: Results of a prospective study
T Knauf et al. 809
- Factors of post-stroke dementia: A nationwide cohort study in Taiwan
C-H Li et al. 815

BEHAVIORAL AND SOCIAL SCIENCES

- Functional training in postmenopause: Cardiac autonomic modulation and cardiorespiratory parameters, a randomized trial
MPC Rezende Barbosa et al. 823

SOCIAL RESEARCH, PLANNING AND PRACTICE

- Care preferences of healthy, middle-aged adults in Japan and the USA if they acquired dementia: A cross-sectional observational study
M Nakanishi et al. 829

BIOLOGY

- Quantitative evaluation of age-related changes to pelvic floor muscles in magnetic resonance images from 369 patients
Y Komemushi et al. 834

LETTERS TO THE EDITOR

COMMENTS

- Post-intensive care unit respiratory failure in older patients: Can we predict intensive care unit discharge properly?
P Ruggeri et al. 838
- Authors' reply to comments on "Post-intensive care unit respiratory failure in older patients liberated from intensive care unit and ventilator"
Y-C Chen et al. 839
- Neprilysin inhibitors and chest pain perception in acute myocardial infarction
E Siniorkakis et al. 840
