## EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Treatment patterns of antihypertensive fixed-dose combinations according to age and number of agents prescribed: Retrospective analysis using a Japanese claims database  
*T Ishida et al.* 1077
- Which factors are associated with length of stay in older patients with acute decompensated heart failure with preserved ejection fraction?: AURORA study  
*M Nishino et al.* 1084
- Impact of age on survival of patients with out-of-hospital cardiac arrest transported to tertiary emergency medical institutions in Osaka, Japan  
*F Nakamura et al.* 1088
- Dementia in China (2015–2050) estimated using the 1% population sampling survey in 2015  
*Y-Q Wang et al.* 1096
- Efficacy of pharmacists' assessment and intervention based on Screening Tool for Older Persons' Appropriate Prescriptions for Japanese compared with Screening Tool for Older Persons' Appropriate Prescriptions for Japanese criteria version 2 in older patients with cardiovascular disease  
*T Kimura et al.* 1101
- Prospective clinical trial evaluating vulnerability and chemotherapy risk using geriatric assessment tools in older patients with lung cancer  
*Y Tsubata et al.* 1108
- Inadequate empirical antimicrobial treatment in older people with bacteremic urinary tract infection who reside in nursing homes: A multicenter prospective observational study  
*AB Gómez Belda et al.* 1112
- Investigator-initiated clinical study of a functional peptide, SR-0379, for limb ulcers of patients with Werner syndrome as a pilot study  
*H Nakagami et al.* 1118
- Sarcopenia as a predictor of activities of daily living capability in stroke patients undergoing rehabilitation  
*T Matsushita et al.* 1124
- Factors affecting reversion from mild cognitive impairment to normal cognition in midlife to later life in Korea: A national population study  
*AR Jang and JY Yoon* 1129

- Relationship between oral environment and development of pneumonia and acute viral respiratory infection in dependent older individuals  
*H Tashiro et al.* 1136
- Multivariate analysis of factors related to the absence of musculoskeletal degenerative disease in middle-aged and older people  
*S Imagama et al.* 1141
- Effect of walking on depression prevalence for diabetes using information communication technology: Prospective study  
*T Yamashita et al.* 1147
- Chronic pain is independently associated with social frailty in community-dwelling older adults  
*T Hirase et al.* 1153

## SOCIAL RESEARCH, PLANNING AND PRACTICE

- Urban–rural differences in multimorbidity and associated factors in China and Korea: A population-based survey study  
*JYYi et al.* 1157

## BIOLOGY

- Prevalence and clinical impact of snoring in older community-dwelling adults  
*HWada et al.* 1165
- SARC-F: A validation study with community-dwelling older Japanese adults  
*T Kera et al.* 1172
- Aging is independently associated with an increasing normal respiratory rate among an older adult population in a clinical setting: A cross-sectional study  
*A Takayama et al.* 1179

## LETTERS TO THE EDITOR CASE REPORT

- Adverse motor effects of progressive supranuclear palsy with frontal lobe signs: A case report  
*K Kunitoki et al.* 1184

## RESEARCH STUDIES

- Correlation between the Barthel Index and care need levels in the Japanese long-term care insurance system  
*T Matsuda et al.* 1186
