Geriatrics and Gerontology International Volume 19 Issue 12, December 2019

EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Diagnosis of mild cognitive impairment using multiple neuroimaging modalities in addition to the Mini-Mental State Examination
H Kaneko et al. 1193
- Factors associated with changes of care needs level in disabled older adults receiving home medical care: Prospective observational study by Osaka Home Care Registry (OHCARE)
M Yamamoto et al. 1198
- Non-participation in health checkup and Kihon Checklist predicts loss of certification-free survival in community-dwelling older adults
Y Igarashi et al. 1206
- Lymphopenia predicts poor prognosis in older gastric cancer patients after curative gastrectomy
T Tatara et al. 1215
- Correlation between frailty and disease activity in patients with rheumatoid arthritis: Data from the CHIKARA study
M Tada et al. 1220
- Association between quality of life and sleep time among community-dwelling stroke survivors: Findings from a nationally representative survey
Y Kim and H-M Moon 1226
- Factors facilitating home death in non-cancer older patients receiving home medical care
S Masumoto et al. 1231
- Association of trajectories of cognitive function with cause-specific mortality and medical and long-term care costs
Y Taniguchi et al. 1236
- Impact of loss of independence in basic activities of daily living on caregiver burden in patients with Alzheimer's disease: A retrospective cohort study
R Kawaharada et al. 1243
- Prevalence and associated factors influencing depression in older adults living in rural Thailand: A cross-sectional study
S Charoensakulchai et al. 1248

- Lower limb muscle mass is associated with insulin resistance more than lower limb muscle strength in non-diabetic older adults
T Seko et al. 1254

- Factors associated with high-risk drinking in older adults: Evidence from a national survey in Japan
H Midorikawa et al. 1260

BEHAVIORAL AND SOCIAL SCIENCES

- Rotating savings and credit association, its members' diversity, and higher-level functional capacity: A 3-year prospective study from the Japan Gerontological Evaluation Study
K Sato et al. 1268

SOCIAL RESEARCH, PLANNING AND PRACTICE

- Clinical medication review type III of polypharmacy reduced unplanned hospitalizations in older adults: A meta-analysis of randomized clinical trials
F Mizokami et al. 1275

- Effects of a water-based exercise program on disability prevention in older Japanese adults
C Iwasaka et al. 1282

LETTERS TO THE EDITOR

CASE REPORT

- Dulaglutide-related bullous pemphigoid in a patient with type 2 diabetes: A case report
G Fukuda et al. 1289

RESEARCH STUDIES

- Association between anorexia and poor chewing ability among community-dwelling older adults in Japan
Y Kimura et al. 1290

- Medication prescription in older people receiving home medical care services
K Kidana et al. 1292

- Multiple turns: Potential risk factor for falls on the way to the toilet
B-K Son et al. 1293
