EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Low alanine aminotransferase levels predict low muscle strength in older patients with diabetes: A nationwide cross-sectional study in Korea
SM Chung et al. 271
- Association of long-term care needs, approaching death and age with medical and long-term care expenditures in the last year of life: An analysis of insurance claims data
H Mori, T Ishizaki and R Takahashi 277
- Nationwide survey of continence status among older adult residents living in long-term care facilities in Japan: The prevalence and associated risk factors of incontinence and effect of comprehensive care on continence status
M Suzuki et al. 285
- Reliability and construct validity of a novel motor-cognitive dual-task test: A Stepping Trail Making Test
Y Osuka et al. 291
- Chronic stressors, stress coping and depressive tendencies among older adults
Y Murayama et al. 297
- Drug prescription patterns and factors associated with polypharmacy in >1 million older adults in Tokyo
T Ishizaki et al. 304
- Evaluating the sit-to-stand transfer assistance from a smart walker in older adults with motor impairments
C Werner et al. 312
- Frequent emergency department use by older adults with ambulatory care sensitive conditions: A population-based cohort study
I Dufour et al. 317
- Medical interventions suppressed progression of advanced Alzheimer's disease more than mild Alzheimer's disease
Y Honjo, K Ide and H Takechi 324
- Randomized trial results of alerting primary clinicians to severe weight loss among older adults in the Low Indexes of Metabolism Intervention Trial part A
N Tsabar et al. 329
- The relationship between cognition and functional outcomes in rehabilitation: FIMCog vs. MoCA
E Zakharova-Luneva et al. 336
- Interaction between worsening cognitive function and deteriorating functional status on depressive symptoms among Chinese community-dwelling elders
J Wang et al. 343
- Malnutrition risk and hospital-acquired falls in older adults: A cross-sectional, multicenter study
D Eglseer, M Hoedl and D Schoberer 348

SOCIAL RESEARCH, PLANNING AND PRACTICE

- Impact of dementia on quality of death among cancer patients: An observational study of home palliative care users
K Hirooka et al. 354

- Screening for vulnerable older people: Is the Probability of Repeated Admission scale an accurate tool?
M Perez, VG Moreira and RA Lourenço 360
- Clinical effectiveness of an intermediate care inpatient model based on integrated care pathways
SJ Santa Eugènia et al. 366
- Measuring the impact of age, gender and dementia on communication-robot interventions in residential care homes
K Obayashi, N Kodate and S Masuyama 373

BEHAVIORAL AND SOCIAL SCIENCES

- Knee osteoarthritis and its association with mental health and health-related quality of life: A nationwide cross-sectional study
H-M Park, H-S Kim and Y-J Lee 379

LETTERS TO THE EDITOR

CASE REPORT

- Reduced family care burden by using a communication robot: Case report
S Suzumura et al. 384

RESEARCH STUDIES

- Theory-based community outreach curriculum improves skincare and foot care self-efficacy in Chinese American older adults
CS Zhong, VE Nambudiri and KJ Liu 385
- Utility of the sarcopenia index for assessment of muscle mass and nutritional status in patients with chronic heart failure: Comparison with anthropometric parameters
K Abe et al. 388

COMMENTS

- Some comments for better understanding of the study entitled "Which factors are associated with length of stay in older patients with acute decompensated heart failure with preserved ejection function?: AURORA study"
S Ozkok and G Bahat 390
- Comments for better understanding of the study "Aging is independently associated with an increasing normal respiratory rate among an older adult population in a clinical setting"
S Gunaydin et al. 391
- Simple and easy predictors for long-stay on admission are favorable to manage older patients with acute decompensated heart failure with preserved ejection function: AURORA study
M Nishino et al. 392
