Geriatrics and Gerontology International Volume 20 Issue 10, October 2020

EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Are signs and symptoms in cardiovascular rehabilitation correlated with heart rate variability? An observational longitudinal study
C Takahashi et al. 853
- Mediation and moderated mediation in the relationships among income condition, depression, cognition and residence among older adults in China
MYuan et al. 860
- Relationship between subjective memory complaints and social and leisure activities in community-dwelling older people: Toyoake Integrated Care Study
H Takechi et al. 867
- A cross-lagged model of depressive symptoms and mobility disability among middle-aged and older Chinese adults with arthritis
R Yang et al. 873
- Etiology and prognosis of spontaneous pneumothorax in the elderly
F Takahashi et al. 878
- Chair-stand exercise improves post-stroke dysphagia
Y Yoshimura et al. 885
- Effectiveness of a far-infrared low-temperature sauna program on geriatric syndrome and frailty in community-dwelling older people
M Sugie et al. 892
- Effects of Wu Qin xi Qigong exercise on physical functioning in elderly people with knee osteoarthritis: A randomized controlled trial
C Xiao et al. 899
- Seasonal variation in hydration status among community-dwelling elderly in Japan
S Tanaka et al. 904
- Prevalence and risk factors of dual sensory impairment among community-dwelling older adults in Selangor: A secondary data analysis
HY Mah et al. 911
- Oral hypofunction and its association with frailty in community-dwelling older people
Y Shimazaki et al. 917
- Preoperative neutrophil-lymphocyte ratio, an independent risk factor for postoperative cognitive dysfunction in elderly patients with gastric cancer
R Yong and Y Meng 927
- Risk factors for perioperative bleeding in percutaneous endoscopic gastrostomy construction: A case series and retrospective preliminary investigation
K Ota et al. 932
- Family members' concerns about relatives in long-term care facilities: Acceptance of visiting restriction policy amid the COVID-19 pandemic
T-C Yeh et al. 938
- Cut-offs for calf circumference as a screening tool for low muscle mass: WASEDA'S Health Study
R Kawakami et al. 943
- Reactive leukocytosis in older patients with acute colonic diverticulitis: A retrospective study utilizing logistic regression analysis
Y Sasaki et al. 951

SOCIAL RESEARCH, PLANNING AND PRACTICE

- Dementia education is the first step for cooperation: An observational study of the cooperation between convenience stores and community general support centers
H Matsumoto et al. 956

- Potential prescribing omissions may have no influence on cause of death in care-dependent older adults with percutaneous endoscopic gastrostomy tube
Y Hattori et al. 961

- Impact of home- and community-based services in the long-term care insurance system on outcomes of patients with acute heart failure: Insights from the Kitakawachi Clinical Background and Outcome of Heart Failure Registry
K Takabayashi et al. 967

BIOLOGY

- Association between heart diseases, social factors and physical frailty in community-dwelling older populations: The septuagenarians, octogenarians, nonagenarians investigation with centenarians study
N Klinpudtan et al. 974

- Serum growth differentiation factor 15 level is associated with muscle strength and lower extremity function in older patients with cardiometabolic disease
K Oba et al. 980

LETTERS TO THE EDITOR

CASE REPORTS

- Secondary peritonitis as a result of accidental ingestion of a press-through package
I Seike et al. 988

- Individualized approach to reconsider perioperative do-not-resuscitate orders in frail older patients
JE Ruisch et al. 989

RESEARCH STUDIES

- Questionnaire for medical checkup of old-old (QMCOO)
S Satake and H Arai 991

- The revised Japanese version of the Cardiovascular Health Study criteria (revised J-CHS criteria)
S Satake and H Arai 992

- Facilitating telehealth for older adults during the COVID-19 pandemic and beyond: Strategies from a Singapore geriatric center
LF Tan et al. 993

- Vaccine mandate in long-term care facilities
H Ino 995

COMMENTS

- Is sarcopenia primarily an age-related or renin-angiotensin system-related disorder?
E Gurcay and M Kara 997

- Reply to the comments on "Utility of the sarcopenia index for assessment of muscle mass and nutritional status in patients with chronic heart failure: Comparison with anthropometric parameters"
K Abe et al. 998

- Comments for better understanding of the study clinical characteristics and prognostic factors in COVID-19 patients aged ≥80 years
VK Arumalla and AB Patil 999

- Reply to comments on "Is sarcopenia primarily age- or renin-angiotensin system-related disorder?"
M Mogi 1000
