Geriatrics and Gerontology International Volume 20 Issue 12, December 2020

REVIEW ARTICLE

- Geriatric management of older patients with multimorbidity
T Kojima et al. 1105

REPORT OF THE COMMITTEE

- The Japan Geriatrics Society consensus statement “recommendations for older persons to receive the best medical and long-term care during the COVID-19 outbreak—considering the timing of advance care planning implementation”
The Japan Geriatrics Society Subcommittee on End-of-Life Issues and New Coronavirus Countermeasure Team, M Kuzuya, et al. 1112

EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Type of underlying fracture after the surgical treatment of geriatric trauma patients has no effect on mortality during intensive care treatment
T Knauf et al. 1120
- Multimorbidity patterns, all-cause mortality and healthy aging in older English adults: Results from the English Longitudinal Study of Aging
H Nguyen et al. 1126
- Calf circumference and risk of cardiovascular disease
C-H Hsiang et al. 1133
- Clinical significance of a positive *Clostridioides difficile* glutamate dehydrogenase test on the outcomes of hospitalized older patients
Y Nagayoshi et al. 1138
- Estimating appendicular muscle mass in older adults with consideration on paralysis
J Ueshima et al. 1145
- Venous thromboembolism after delayed surgery for a hip fracture: A retrospective cohort study
JY Yoon et al. 1151
- Use of Dementia Assessment Sheet for Community-based Integrated Care System 8-items (DASC-8) for the screening of frailty and components of comprehensive geriatric assessment
K Toyoshima et al. 1157
- Randomized trial of a patient empowerment and cognitive training program for older people with diabetes mellitus and cognitive impairment
C-w Wong et al. 1164
- Development and validation of the NCGG-FAT Chinese version for community-dwelling older Taiwanese
W-J Lee et al. 1171
- Clinical manifestations and factors associated with mortality from COVID-19 in older adults: Retrospective population-based study with 9807 older Brazilian COVID-19 patients
CDF de Souza et al. 1177

- Effect of a nurse-led hypertension management program on quality of life, medication adherence and hypertension management in older adults: A randomized controlled trial
M Kolcu and A Ergun 1182
- Changes in poor self-rated health status among elderly Koreans over 10 years: Community Health Survey 2008–2017
J-G Jung et al. 1190
- Impact of sarcopenia on glycemic control and atherosclerosis in Japanese patients with type 2 diabetes: Cross-sectional study using outpatient clinical data
S Nakanishi et al. 1196
- Delirium, functional decline and quality of life after transcatheter aortic valve implantation: An explorative study
SJ Beishuizen et al. 1202
- Preoperative serum biomarkers in the prediction of postoperative delirium following abdominal surgery
M Ida et al. 1208
- Impact of the interaction between mild and mild-to-moderate cognitive impairment with chronic health problems on hospital admission among community-dwelling older adults
R Amini and B Kawser 1213
- Comparison between the Global Leadership Initiative on Malnutrition and the European Society for Clinical Nutrition and Metabolism definitions for the prevalence of malnutrition in geriatric rehabilitation care
A Shimizu et al. 1221
- Characteristics of urinary tract infections in older patients in a tertiary hospital in Greece
P Ioannou et al. 1228

SOCIAL RESEARCH, PLANNING AND PRACTICE

- Effect of pain on depression among nursing home residents: Serial mediation of perceived social support and self-rated health. A cross-sectional study
Y Chen et al. 1234

LETTERS TO THE EDITOR

RESEARCH STUDIES

- Outbreaks of COVID-19 infection in aged care facilities in Japan
K Maeda 1241
- Exploration of etiological perspectives for ageism in geriatric care: A qualitative analysis of the most popular ageism scales
Y Hirakawa and KM Saif-Ur-Rahman 1242
- L-Carnitine supplementation in heart failure patients with preserved ejection fraction; a pilot study
Y Kinugasa et al. 1244
- Call for telephone outreach to older people with cognitive impairment during the COVID-19 pandemic
C Ura et al. 1245
