## REVIEW ARTICLES

Implication of diet and exercise on the management of age-related sarcopenic obesity in Asians  
*YJ Kim et al.* 695

Employment in old age and all-cause mortality: A systematic review  
*H Murayama et al.* 705

## ORIGINAL ARTICLES

### EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

Cardiovascular medications and long-term mortality among stroke survivors in the Brazilian Study of Stroke Mortality and Morbidity (EMMA)  
*KAS Souza et al.* 715

Predictive ability of the total score of the Kihon checklist for the incidence of functional disability in older Japanese adults: An 8-year prospective study  
*H Matsuzaki et al.* 723

Validation of the Clinical Frailty Scale version 2.0 in Turkish older patients  
*Z Aşık et al.* 730

Association of dietary diversity with all-cause mortality by body mass index in Japanese older adults: An age-specific prospective cohort study (NISSIN project)  
*S Takabayashi et al.* 736

Kihon Checklist items associated with the development of frailty and recovery to robust status during the COVID-19 pandemic  
*T Hirose et al.* 745

The association of the Japan Science and Technology Agency Index of Competence with physical and cognitive function in community-dwelling older adults  
*T Shoji et al.* 753

Handgrip strength weakness and asymmetry together are associated with cardiovascular outcomes in older outpatients: A prospective cohort study  
*S Lin et al.* 759

Relationship between oral health and social activity among community-dwelling older adults in Korea: Focusing on the mediating effect of depressive symptoms  
*HN Park and JY Yoon* 766

Subjective cognitive complaints and dental clinic visits: A cross-sectional study from the Japan Gerontological Evaluation Study  
*K Yamamoto-Kuramoto et al.* 773

Strength and morphology of a suprahyoid muscle and their relationship to forward head posture in healthy older adults  
*T Tamai et al.* 779

Association between diabetic peripheral neuropathy and sarcopenia: A systematic review and meta-analysis  
*T Wannarong et al.* 785

### BEHAVIORAL AND SOCIAL SCIENCES

Establishment of the Japanese version of the dementia stigma assessment scale  
*T Noguchi et al.* 790

### SOCIAL RESEARCH, PLANNING AND PRACTICE

Development of a predictive model using the Kihon Checklist for older adults at risk of needing long-term care based on cohort data of 19 months  
*K Sato et al.* 797

Change in long-term care service usage in Japan following the COVID-19 pandemic: A survey using a nationwide statistical summary in 2018–2021  
*K Sato et al.* 803

### LETTERS TO THE EDITOR

#### CASE REPORT

Misplaced nasogastric tube to right pleural cavity in an elderly patient with Parkinson's disease  
*F Li et al.* 810

### RESEARCH STUDIES

Comparison of two scoring methods for the Questionnaire for Medical Checkup of Old-Old to diagnose frailty  
*T Shinohara et al.* 811

Sex differences in places of home care  
*T Yamanaka et al.* 813

Prediction of the possibility of return to home based on frailty assessment at the time of admission to the COVID-19 treatment unit  
*K Kawamura et al.* 815

### COMMENTS

Factors related to a sense of security with medical and long-term care services among community-dwelling middle-aged and older adults in Japan: Methodological issues to avoid misinterpretation  
*R Hirochika* 817

Comments on "Predictive ability of the total score of the Kihon checklist for the incidence of functional disability in older Japanese adults: An 8-year prospective study"  
*S Zhang and R Otsuka* 818
