REVIEW ARTICLE

- Effect of drugs on nutritional status and drug-nutrition interactions in older patients
M Kuzuya 465

ORIGINAL ARTICLES

EPIDEMIOLOGY, CLINICAL PRACTICE AND HEALTH

- Macronutrients intake and physical frailty in Korean older adults: A cohort-based cross-sectional study
N Yang et al. 478
- Functional outcomes and associated factors of cerebral infarction and intracerebral hemorrhage in an area with aging populations in change over time: Evidence from the Akita Stroke Registry
I Kudo et al. 486
- Cut-off values for severe low muscle strength and skeletal muscle mass in post-acute patients with sarcopenia
F Nagano et al. 493
- Association between the type of hypnotic drug and in-hospital fractures in older patients with neurocognitive disorders: A case-control study using a nationwide database
S Matsumoto et al. 500
- Changes in blood pressure associated with frailty and sarcopenia in elderly outpatients with cardiometabolic diseases
J Ishikawa et al. 506
- Validity and reliability of the Integrated Palliative Care Outcome Scale for non-cancer patients
Y Ishii et al. 517
- Association of carnitine insufficiency with sarcopenia and dynapenia in patients with heart failure
Y Kinugasa et al. 524
- Technical and oncological safety of pancreatectomy for pancreatic cancer in older adults aged over 75 years versus younger adults: A single-center retrospective cohort study
A Fujinaga et al. 531
- Bacterial species distribution on the genital skin of hospitalized patients with stroke manifesting incontinence-associated dermatitis: A cross-sectional study
M Kohta et al. 537
- Survey of physicians' and patients' understanding, perceptions, and attitudes toward depressive state in atrial fibrillation
A Yukawa et al. 543

- Effects of the salivary gland massage program in older type 2 diabetes patients on the salivary flow rate, xerostomia, swallowing and oral hygiene: A randomized controlled trial
S Jeamanukulkit et al. 549

BIOLOGY

- Development of a pharmacological evidence-based anticholinergic burden scale for medications commonly used in older adults
S Yamada et al. 558
- Association between the anthropometric measurements and dietary habits on telomere shortening in healthy older adults: A-cross-sectional study
HK Barcin-Güzeldere et al. 565

LETTERS TO THE EDITOR

CASE REPORT

- Case analysis of effective interventions for chronic constipation in older adult patients with dementia
S Takeuchi et al. 573

RESEARCH STUDIES

- Projecting home nurse workforce needs for the next two decades for the super-aging population of Japan
K Kamio and JL Espinoza 575
- Stair climbing and the risk of all-cause, cancer, and cardiovascular mortality among older adults: The Suita Study
A Arafa et al. 577
- COVID-19 pandemic increased the risk of prescribing potentially inappropriate medications to older adults
Y Suzuki et al. 579

COMMENTS

- Re: Positive aspects of caregiving attenuate the relationship between behavioral bother and anxiety and depressive symptoms in dementia family caregivers
K Kajiwara et al. 581
- Comment on "Efficacy and safety of a transdermal donepezil patch in patients with mild-to-moderate Alzheimer's disease: A 24-week, randomized, multicenter, double-blind, parallel-group, non-inferiority study"
F Mutlay et al. 582
